PROFESSIONAL SUMMARY

Full-Stack AI Engineer passionate about building AI-native applications and intelligent systems. Proficient in Python, Java, ReactJS with hands-on experience in LLM integration, prompt engineering, and AI-augmented architectures. Strong foundation in CS fundamentals (430+ LeetCode problems, Qualified **GATE CSE 2025 AIR 9200, 8.6 CGPA**) with proven ability to ship production-grade AI features at scale.

EDUCATION

College : Asansol Engineering College

Bachelor of Technology in Computer Science and Engineering

Expected Year of Graduation : June , 2026 CGPA- 8.6

TECHNICAL SKILLS

Languages & Frameworks: Python, Java, ReactJS

AI & LLM: LLM Integration (Gemini AI, Claude), Prompt Engineering, Structured Outputs, RAG Concepts, Agentic Workflows, Langchain, Ollama

Cloud & Backend: Firebase, Streamlit, MySQL, Vector DB

DevOps & Tools: Git, GitHub, VS Code, Version Control

Relevant Coursework: Data Structures & Algorithms, Operating Systems, DBMS

PROJECTS

1. **NiDaan** — AI Diagnostic Assistant for ASHA Rural Health Workers

May 2026

Repo: <https://github.com/PriyanshuPaul79/AshaPulse>

- Built **RAG**-based clinical triage system for **ASHA/ANM** workers enabling symptom classification into actionable triage levels with Hindi-language medical advice and PHC referral logic following **F-IMNCI** protocols.
- Engineered **multi-LLM backend** supporting **Groq (Llama-3.1-8b)**, **NVIDIA NIM**, and local Ollama inference with optimized prompts achieving consistent structured JSON output across demographic-specific scenarios (infants, elderly, pregnant, postpartum).
- Validated against **15 adversarial clinical test** cases covering conflicting symptoms, demographic edge cases, and vague inputs; debugged silent RAG context injection failure, JSON parse errors, and production history deduplication bugs.

Tech Stack: Python, LangChain, ChromaDB, Ollama, DeepSeek R1, FastAPI, React, Tailwind CSS, Groq API, NVIDIA NIM

2. **NextHire** — AI-Driven Mock Interview Platform

April 2025 – June 2025

*Repo: <https://github.com/PriyanshuPaul79/NextHire>

- Deployed full-stack interview platform used by **5+ colleges enabling 500+ interviews with 90% user satisfaction** covering Firebase authentication → interview execution → AI feedback delivery pipeline.
- Engineered **Gemini AI**-based prompt-driven question generation with structured outputs and integrated **Vapi** real-time voice agent for low-latency AI-human conversational interview workflows.

Tech Stack: ReactJS, Firebase, Vapi Voice Agent, Gemini AI, Tailwind CSS

3. **BrewHaven** — Freelance Business Landing Page

Sept 2023 - Nov 2023

Repo: <https://github.com/PriyanshuPaul79/BrewHaven>

- Developed responsive, client-requested landing page following complete **SDLC**: requirements gathering, design, development, user feedback, and deployment with iterative client collaboration.

Tech Stack: ReactJS, Tailwind CSS

ACHIEVEMENTS

- GATE CSE 2025** – AIR **9200** out of **1.8L+** candidates (Top **5%**)
- LeetCode** – **430+** problems solved, Peak Rating **1610** (Top **28%**), **103-day** streak
- GeeksforGeeks – POTD Streak: **165** days, College Rank: **43**
